Scope

Some small tips on IRC (tested on freenode)

Nick temporarily unavailable

Ok now your nick is Guest42666 and whe nyou try to do:

```
/nick MyNick
```

You get:

```
Nickname is temporarily unavailable
```

This is a border effect of the enforce parameter. To get everything back:

```
/quote NickServ identify MyNick MyPassWord
/quote NickServ set enforce OFF
/quote NickServ release MyNick MyPassWord
/nick MyNick
/quote NickServ set enforce ON
```

And you are good to go chatting!
